

Certificate of Compliance

ELITE 70 

ELITE 63 

This is to certify that doors manufactured from the above systems will comply with the 1.8 W/(m².K) maximum whole window U value requirement, for existing dwellings, as specified within Approved Document L1B of the Building Regulations for England and Wales (conservation of Fuel & Power) implemented on 1st October 2010 when glazed with insulating glass units incorporating any spacer bar, any low emissivity glass and a minimum 16mm cavity filled with 90% Argon gas.

This covers the following door styles:

- **Single Residential Doors**
- **French Doors**
- **Tilt/Slide Patio Doors**
- **In-line Sliding Patio Doors**
- **Bi-Folding Doors**

This is based on simulations conforming to BS EN ISO 10077-1 & BS EN ISO 10077-2 by BFRC certified simulators and is based on worst case conditions for the sample sizes in accordance with BS EN 14351-1 of 1230mm wide x 2180mm high Residential Door and 2000mm wide x 2180mm high for all other configurations.
